Tricat 25 Evolution performance

“Speed without over-indulging”

The TRICAT 25 is made in Brittany, France, with a very high quality of construction and equipment.

The TRICAT 25 can be folded afloat in the harbour to take up the space of an equivalent single hull.

It is designed for day trips or coastal cruising and offers all the necessary comfort on board to take off for several days.

The large float volumes (largest in its category), are an essential safety element, ensuring a very high level of stability and high cruising speeds!

Sailing a TRICAT 25 means:

- Exploring inaccessible areas and being able to beach flat without stands thanks to its 30 cm draught.
- Being able to tow your Tricat behind your car without worrying about weight, putting it in the water and being ready to sail in less than 2 hours, even single-handed.
- Sailing fast, easy and without heeling.
- Sharing the pleasure of sailing with family and friends.
- Benefiting from a privileged exchange with a Breton yard attentive to your needs.
- Accessing an available and efficient service as well as the possibility to benefit from the latest developments throughout the life of your boat.

Don't wait any longer, the TRICAT 25 Evo is made for you!

Venise : Tricat 25 Evolution N°5

Tricat: an experienced team of professionals, sailors and enthusiasts, who design, build and customise your trimaran (200 boats produced).

“Fast and easy”

The TRICAT 25 Evolution is the benchmark in its class!

It is the ideal boat for your summer cruises but also for your day trips.

Easy to manoeuvre and set up, the TRICAT 25 Evolution is a folding trimaran (without dismantling) and transportable on the road. It will allow you to change your sailing area easily.

Its cabin houses a double berth at the front and 2 single berths at the rear of the boat.

Its quality of construction and equipment gives it excellent rigidity and robustness for safe sailing.

The performances are worthy of a TRICAT and the gliding sensations are assured!

Its shallow draught (30 cm) will allow you to sail close to the coast but also to run aground easily.

Opting for the Tricat 25 also means benefitting from Tricat's 20 years of experience in the design and construction of folding and transportable trimarans. The infusion process, which has been used from the very beginning, as well as the standard carbon appendages are examples of Tricat's expertise and the construction quality of the Tricat 25.

Ozymandias : Tricat 25 Evolution

Tricat 25 EVO infusion-built central hull

"Small size, big in performance"

Sitting area, multi-position table and forward berth

Sitting area and companionway

Sitting area, companionway and galley block

Inside standard equipments :

Front cabin :

- Front double berths
- Flooring for front double berths
- Battery storage

Square:

- 2 Roof windows
- 2 storages
- Removable companionway step
- Floor imitation teck

- Cruising Pack
- Performance Pack
- Trailer
- Engine
- Antifouling
- Electronics
- Rudder seat
- Lazy bag

And much more...

Standard sail :

- Mylar mainsail, triradial, with 2 reef lines
- Mylar triradial jib (with snap hook)

Standard Rig :

- Black aluminium mast with double diamonds
- Black boom with 2 reef lines
- Lazy jack
- 8 :1 Mainsail hoist
- Shroud hoist 4 :1

Outside standard equipments :

- 1 Goïot panels in the cockpit
- 2 laterals storages in the cockpit
- 1 storage in the floater
- 1 goiot opening hatch for the front double berth
- Anchor storage
- 2 mesh trampolines
- 2 fronts nets
- Engine bracket (15Hp maximum)
- Front pulpit
- 2 roof winchs Harken st 18
- 2 jib sheets traveller
- 1 Harken main sail traveller
- Hoist mainsail 8 :1
- 1 mooring cleat at the bow
- 2 mooring cleats at the stern
- Folding system fittings
- 2 wood door panels

Construction :

- Hulls in sandwich / glassfibers with polyester resin realised in vaccum infusion
- With gelcoat with non slip deck
- Wood bulkheads
- 2 Carbon daggerboards
- Rudder blade in carbon with kick up system
- Beams in epoxy carbon realised in vaccum infusion

On a tous **nos propres besoins ou envies**, c'est pourquoi Tricat vous accompagne dans votre projet avec le choix des tissus et coloris, l'agencement selon les versions.

Technical characteristics
