TRICAT 6.90 XL

AGILITY, POWER, DYNAMISM

THE VERSATILITY PRESERVED

- **Easy grounding:** With only 28 cm of draft, access the wildest coves.
- **Folding afloat:** The rear pivoting system allows you to effortlessly enter a standard port space.
- **Habitability:** An interior that remains bright and customizable for your family cruises.
- **Hyper transportability:** Easily transportable on a trailer.

THE KEY STRENGTHS

INCREASED POWER

Thanks to its 5 m wingspan, compared to 4.60 m, the 6.90 XL gains in righting moment, allowing it to carry more sail.

EXCELLENCE IN SMALL MOMENTS

Thanks to an increased sail area (mainsail of 24 m²), more canvas allows for maximizing speed in light winds.

CARBON AGILITY

The new 9.50 m carbon mast provides maximum rigidity. The boat is more dynamic and reacts instantly to every adjustment. Furthermore, the mast allows for a code 0 and a spinnaker to be flown at the top.

FLAT NAVIGATION

The reduced dihedral allows for flatter navigation, thus optimizing the projected surface to the rigging and contributing to the boat's speed.

TRICAT 6.90 XL: ENHANCED POWER

The TRICAT 6.90 switches to XL mode. With an expanded platform and carbon rigging, discover a more responsive trimaran capable of turning the slightest breeze into acceleration.

TECHNICAL SPECIFICATIONS

Length (unfolded/folded)	6.90 m / 7.60 m
Width unfolded/folded	6.60 m / 5 m
Max/min draft	1.20 m / 0.28 m
Displacement (empty)	720 kg
Medium-range weapons	112 kg
Folding system	yes
Portability	yes
CE Category	C (5 ppl.) / D (6 ppl.)

Sails	
Mainsail	24.00 m ²
Jib	12.00 m ²
Spi asymétrique	46 m ²
Code 0	25.6 m ²
Recommended engine	3.5 to 6 hp Outboard
